

Objectives of CDC Childhood Lead Poisoning Prevention Grant

1. Increase the number of children less than 6 years of age tested for lead
2. Improve data usage that leads to a greater identification of geographic areas and populations at high-risk for lead exposure
3. Increase the ability to target interventions to high-risk geographic areas and populations
4. Increase the knowledge and awareness of lead prevention and interventions through lead prevention training programs
5. Increase the identification of children exposed to lead and link them to recommended services
